

Byron Jones

Carleton Place, ON • 613-668-5554 • byronjones77@gmail.com

PROFILE

Automation and instrumentation student with a Computer Engineering Technology background and three years of professional technical experience. Comfortable with control logic, troubleshooting, and reading schematics. Seeking an automation and instrumentation co-op.

TECHNICAL SKILLS

Automation & Controls: PLC programming and ladder logic (Allen-Bradley RSLogix / Studio 5000, self-study); control systems; sensor and I/O interfacing

Electrical & Electronics: Circuits, wiring, microcontrollers, and reading schematics and technical drawings

Troubleshooting & Diagnostics: Methodical fault-finding across electronic and computer systems; hardware and software diagnostics

Computer & Software: MS Office, programming and scripting (Python, C/C++, SQL), and computerized maintenance systems

Languages: English (native); French (working proficiency)

Licenses & Safety: Valid Ontario Class G licence; WHMIS certified; forklift-trained; Working at Heights to follow

PROFESSIONAL EXPERIENCE

Software Developer | Warner Bros. Discovery, Ottawa Jan 2023 – Sept 2023

- Diagnosed and resolved critical issues across multiple systems and device tiers, applying methodical troubleshooting to improve stability and reduce failures.
- Increased automated test coverage by 70%, building systematic checks that caught issues early and improved reliability.

Data Engineer | Lytica, Ottawa May 2022 – Jan 2023

- Built Python tools that automated manual data processes end to end, improving reliability and reducing repetitive work.
- Optimized SQL queries (MS SQL Server) through indexing and restructuring, cutting query times and improving throughput.

Customer Service Representative | LCBO, Ottawa 2007 – 2020

- Delivered 13 years of dependable service in a fast-paced environment, frequently acting as manager and training new staff.
- Trained on forklift and pallet jack operation; handled inventory and upheld safety and procedure standards as part of a close team.

EDUCATION

Diploma, Automation and Instrumentation Technician (in progress)

St. Lawrence College, Kingston 2026–2028

Advanced Diploma, Computer Engineering Technology - Computing Science

Algonquin College, Ottawa 2021–2024

Relevant coursework: electronics, circuits, microcontrollers, control systems, and hardware troubleshooting.

B.Sc., Biology / Psychology

University of Ottawa 2010–2014

CERTIFICATIONS

- Cisco Packet Tracer, Cisco Networking Academy (2022)
- AWS Cloud Practitioner, Amazon Web Services (2024)
- Software Development, Cloud Computing, JavaScript, Java, Python (Certiport / Pearson VUE, 2025)
